

Big Jim Lawn Rollers

The new Big Jim lawn roller is a natural extension of the field roller currently manufactured at Harriston Ont. The same ruggedness is built right in. The roller is offered in 4', 5' and 6' sizes. They are a heavy duty design. An Extra Heavy duty version is available with sizes up to 8'.

The dry weight of these rollers is serious!

	<u>Heavy Duty</u>	<u>Extra Heavy Duty</u>	
--	-------------------	-------------------------	--

4'	606 lbs	720 lbs	Additional weight can be achieved by filling the drum with water. This will add up to 290 lbs. per foot.
5'	733 lbs	857 lbs	
6'	864 lbs	998 lbs	
7'		1135 lbs	
8'		1272 lbs	

The drum is made from tubular steel 30" in diameter and 3/8" thick. The end plates are 10 gauge steel with 1" bearing on the standard roller. The Extra Heavy Duty version uses 1/4" steel with 1 3/4" pillow block bearings.

A standard hitch clevis is used. The Extra Heavy Duty frame is made of 2" square tubing 3/16" thick. It has mitered corners and surrounds the drum for added strength.

The drum is painted black; and the frame is available in a variety of colours to match your tractor.
